

Eaton ISD Board of Education Supports Project Great Start

At its March 19, 2003 meeting, the Eaton ISD Board of Education went on record in support of the Governor's proposed Project Great Start. The Board believes that to help improve the quality of education and increase student achievement for all of our children, we must continue to support and invest in early childhood education. Project Great Start targets parental and community efforts to provide early learning experiences for our youngest children, which research shows will result in greater school readiness and success. The Board believes that the future of our community depends on the investments we make today. Project Great Start is a significant commitment to that early investment and the Eaton ISD Board of Education concurs with this commitment.
