Dear Michigan Superintendent:

Tough times require tough decisions. We, at the Michigan Association of Secondary School Principals acknowledge that spending money on professional development for your administrative staff has to provide great value and return on your investment. **Principal Boot Camp** provides both of these qualities.

Principal Boot Camp begins with a three day seminar covering the "nuts and bolts" of the principalship. Each eight hour day is divided into sessions that cover every aspect of the job.

The Boot Camp Faculty members are current principals who have been presenters at state conventions, or instructional leaders from other educational fields. Participants complete a 100-Day Plan to get them off to a strong start to a new school year. They also have an opportunity to earn **7 SB-CEUs** and/or credit towards a **Specialty Endorsement** on their Administrator Certificate.

Your principal also gets support throughout the year via webinars, collegial contacts, two follow-up sessions, and the opportunity to attend a MASSP seminar of their choice, all included in the initial cost. Because the bulk of Boot Camp is held in the summer and online, your administrator loses a minimum amount of time from their building.

We at MASSP are confident that our program is the best at preparing administrators for the rigors of the upcoming school year! If you have further questions regarding this great opportunity, please don't hesitate to call MASSP at 517-327-5317.

Richard Rose
2008 Boot Camp Director
