Interact with a 21st Century Classroom

Looking for a 1:1 solution?

About the Conference

The 2009 Great Lakes 1:1 Computing Conference is the inauguration of an annual gathering of the 1:1 education community sponsored by One-to-One Institute and the Illinois Learning Technology Centers. This informative and practical two-day event features three distinct tracks:

1:1 Leadership

1:1 Infrastructure and Management

1:1 Classroom Practice

This event promises participants exposure to new ideas and tools, great discussion and important networking with the 1:1 community.

Wes Fryer

Keynote and Sessions

Wesley Fryer is a digital learning consultant, author, digital storyteller, educator and change agent. Wesley describes himself as a "catalyst for creative engagement and collaborative learning." He has published numerous articles relating to education and technology integration in *Technology and Learning*, *Learning and Leading with Technology*, *District Administrator*, *Interactive Educator*, *The TechEdge*, and the journal *Internet and Higher Education*.
